

SURVIVOR® LV Series Livestock Ring Scale

DESCRIPTION

LV Series livestock ring scale

The new SURVIVOR LV Series livestock ring scale delivers a total system for use in new or existing livestock barns or processing plants. Each scale is custom built to fit the exact specifications and requirements of the application for which it is being installed. Our exclusive G-Force™ mounting system, combined with an extra thick concrete deck, guarantees superior accuracy and longevity previously unavailable in a livestock ring scale.

A full range of digital weight indicators is available for your scale. Rice Lake indicators go beyond simply displaying weight—they feature RATTLETRAP® three-stage digital filtering to lock in stable readings when weighing livestock.

Applications

- Livestock barns
- Stockyards
- Ranches and farms
- Processing plants

Standard Features

- Platform lengths from 13.5 ft to 34.2 ft
- Platform widths from 13.3 ft to 22.8 ft
- NTEP certified Legal-for-Trade
- 50,000 lb capacity in 5 lb increments; 70,000 lb capacity in 10 lb increments with dual range indicator
- 5 year weighbridge warranty

Options/Accessories

- Lightning protection package
- Peripheral electronic equipment
- Racks and gates
- Portable framework

Due to the unique size and design requirements of ring scales, we will construct a scale to your specifications.

SURVIVOR® AG Series Livestock/Agriculture Utility Scale

DESCRIPTION

AG-Series livestock/agriculture utility scale

The new AG Series utility scale packs the performance of a SURVIVOR truck scale into a mid-size, mid-duty frame. It offers exceptional value and versatile performance in farm, ranch, elevator, fertilizer and bulk agriculture applications. Our exclusive G-Force™ mounting system delivers accuracy and durability for weighing trucks, trailers, tanks and wagons. Add optional racks and gates, and it's transformed into a sturdy, Legal-for-Trade livestock scale.

Choose from a full range of digital weight indicators featuring RATTLETRAP® three-stage digital filtering to lock in stable weighments in high-movement and vibration environments.

Applications

- Feed mills and cooperatives
- Livestock barns
- Ranches and farms

Standard Features

- Widths up to 12 ft
- Lengths up to 35 ft
- NTEP certified Legal-for-Trade
- 25,000 lb capacity load cells and pre-assembled G-Force™ mounts
- Up to 30,000 lb full scale capacity in 5 lb increments
- 5 year weighbridge warranty

Options/Accessories:

- Lightning protection package
- Peripheral electronic equipment
- Animal racks and gates
- Grain dumps
